

*'Everything you need to know about the Christian Faith but are afraid to ask.'*

### **Description**

A new and highly graphical interactive guide to the Christian Faith for all members of the Church, especially confirmation candidates and those who wish to learn - but are afraid to ask.

The program is structured to be used either as a complete course, following a laid-down but editable syllabus, or as a reference tool for the enquiring mind seeking further knowledge. The teaching is doctrinally sound and where appropriate is supported by Biblical quotes and a wealth of carefully chosen photographic material. Pages of special interest to the user can be book-marked, annotated and stored for future viewing and reference. Electronic jigsaw puzzles are included to provide an easy method of learning key Christian texts and to focus the mind through leisure. This easy to navigate program has been written by Father John Davies, a Priest and Computer Based Training expert, to help you whatever your age, experience and technical ability. It is an invaluable resource for any parish priest, confirmation candidate or enquiring believer.

### **Features**

- + Clear and concise texts
- + On-screen assistant
- + Bookmark and note making facility
- + Electronic glossary
- + Syllabus editor
- + Progress indicator

### **System Requirements**
